2010 Odyssey Two Space Odyssey 2 by Arthur C Clarke

* 2001: A Space Odyssey * 2010: Odyssey Two. (Also made into a film) * 2061 Odyssey Three * 3001: The Final Odyssey The first and second books are enthralling. 2061 is more of the same, and thus decent but somewhat pointless as part of the arc. 3001 is an attempt at closing up all the loose threads, and does so in a satisfying way.

It wouldn't really change the story but would have kept the continuity.(Again another minor failing by Clarke).

Conclusion: yes, as far as the novels go "2010" is better than "2001." Clarke's "2001" severely "dumbed down" Kubrick's great story. In "2010: Odyssey Two," however, he puts together a decent Sci-Fi story.

Several of his books, including 2001: A Space Odyssey and 2010: Odyssey II, have been adapted into films that still stand as classic examples of the genre. Without a doubt, Arthur C. Clarke's is one of the most important voices in contemporary science fiction literature.
