

ADHD AUTISM

RELATED BOOK :

Is ADHD on the Autism Spectrum Understood org

Autism spectrum disorder and ADHD are related in several ways. ADHD is not on the autism spectrum, but they have some of the same symptoms. And having one of these conditions also increases the likelihood of having the other. Experts have changed the way they think about how autism and ADHD are related.

ADHD and Autism Understanding the Differences Riley

Previously, children could be classified as ADD (Attention Deficit Disorder) or ADHD, but the newest edition eliminated the ADD diagnosis and redefined ADHD to include three categories. The DSM-5 also redefined autism. In the past, a child could receive one of several different autism diagnoses, such as Asperger syndrome, but now each child receives a general diagnosis of ASD and they are placed on a spectrum based on their range of impairment.

ADHD and Autism Differing Symptoms of ADD ASD

Although Hutchins earliest concerns about Clark were about autism-like symptoms, ADHD, not ASD, was Clark's first diagnosis. We first noticed autism-like symptoms when Clark was two, like running to the left in circles while wagging his left hand, Hutchins says.
