### **Anatomy of Story Tim Jarvis**

Explosive Story An explosion has multiple paths that extend simultaneously; in nature, the explosive pattern is found in volcanoes and dandelions. In a story, you can't show the audience a number of elements all at once, even for a single scene, because you have to tell one thing after another; so, strictly speaking, there are no explosive stories. But you can give the appearance of simultaneity. In film, this is done with the technique of the cross cut.
