The Apothecary The Apothecary 1 by Maile Meloy

The Apothecary was one of those books I didn't even have to read the blurb for when I grabbed it at the BEA. That beautiful cover sold me on the spot. The Apothecary Book Review Common Sense Media

This book could serve as a launch pad for further investigation into chemistry, biology, physics, the history of the Cold War, Latin, Greek, the differences between the British and American educational systems. And because it's all seen through the often-incredulous eyes of teens caught up in a grand adventure, the subject matter seems intriguing rather than deadly.
