Chess the art of logical thinking Strategie Lehr

Chess is the art that expresses the science of logic. Mikhail Botvinnik. When you sit down to play a game of chess you are in command of exactly the same eight pieces and eight pawns that Capablanca, Fischer and Kasparov have used to create masterpieces of grand strategy and tactical precision. Their pieces didn't have heightened powers nor more fertile soil on which to work their stratagems: just the same 64 squares, 32 white and 32 black.

Chess The Art of Logical Thinking From the First Move to

This is an interesting book. It is done in the style of Chernev's classic 'Logical Chess Move By Move', with every single move commented on. Yes, there is only so much one can say about the first move of a game, so this is slightly gimmicky, but overall, this is a well done book.
