The Barbecue Bible by Steven Raichlen Goodreads

The title of this one may be a bit misleading to most barbecue enthusiasts. In the U.S. we consider true barbecue to be cooked over indirect heat very slowly, or low and slow. most of the recipes in this book are for grilling, this is cooking directly over high heat. However there are some low and slow recipes in here also, just not a lot.

Best Ribs Ever A Barbecue Bible Cookbook 100 Killer

I suspect others may feel differently. I tried several of the recipes on friends and family; let me just say no one violently objected but uno one asked for a repeat performance. Maybe that just says I am a lousy host or a mediocre cook. If you like BBQ and want something different, buy this unique book and give it a try.
