### **The New Testament by Bart D Ehrman**

Ehrman does an excellent job giving an historical overview of the New Testament. He's got a handful of fairly popular books on the history of early Christianity, the New Testament, and Jesus which I've either read or browsed through larger portions. This lecture series hits almost all of the major high points of many of those books. For those interested in his viewpoint and topics of interest, I'd recommend this as a better catchall for most of his written works to save you some time.
