Betrayed The Vampire Journals 3 by Morgan Rice

Being part three of the Vampire Journals by Morgan Rice this book turned out to be more like an episode than a part of a series. It's safe to say that one should start reading with the first part to fully appreciate the story. While I did get an idea of what must have happened before, I felt I missed too much about previous events when I was suddenly thrown into the middle of vampire covens fighting and humans being "turned".
