Blood Moon The Huntress FBI Thrillers 2 by Alexandra

After thoroughly enjoying Huntress Moon, the first book in this series, I just had to move on to book #2, Blood Moon. From what I've seen so far, it appears each of these books close out the main storyline, or at least get to an acceptable stopping point, but maintain a major core thread that travels throughout the entire series.

Blood Moon by John David Bethel Goodreads Share book

Blood Moon is an atmospheric and remarkable suspense thriller "Based on a true story of kidnapping, extortion, torture and multiple murders". Written with apparent authenticity (the victim of the actual kidnapping wrote the Foreword) my sense is the narrative runs closer to truth than fiction.
