RELATED BOOK :

Blood Moon Total Lunar Eclipse Time and Date

Lunar Tetrad and the 2014 2015 Blood Moons. The term Blood Moon is also sometimes used to refer to four total lunar eclipses that happen in the span of two years, a phenomenon astronomers call a lunar tetrad. The eclipses in a tetrad occur about six months apart with at least five uneclipsed Full Moons between them.

Four Blood Moons Something Is About to Change John Hagee

So, for me, the book was interesting and enjoyable when it talked about the four blood moons and great in that it points out another aspect of God's ultimate majesty, control, and awesomeness, but I could only rate it three stars as most of the book was an end time summary which I had already read in other books. So, it was enjoyable and disappointing all at the same time.
