The digital copy of this book that I read had the title of "High Price" while on Goodreads it is called "The Pleasure Paradox"; both books have the same cover but I am not sure what the official title will be once it is published. My rating: 4.5 out of 5 stars.

### **Book Review High Price by Carl Hart The Boston Globe**

At times, High Price reads like two different books that have been forced together. Hart s memoir, especially his description of meeting his now-adult son, is deeply honest and often painful. And his account of the ways in which scientific evidence has been ignored in the war on drugs is as alarming as it is fascinating.
