The Origin of Species Amazon de Charles Darwin

Charles Darwin is a scientist in an original and true sense, that means his findings do not depend on economic funding objectives at all but on observation, knowledge and his biologic skills alone. Looking at ~150 years of history becomes apparent that he has not always be understood in this original sense. That is why we (everyone interested in human behavior and evolution) have to read this book! It is really one of the most influential at all.
