City of Shadows by Ariana Franklin Goodreads

This is a wonderful gripping read. Set in the hyperinflationary, chaotic Berlin of the 1920s, and filled with characters that would be at home in any Eric Ambler, City of Shadows offers a picture of Berlin in the worst throes of economic collapse.

City of Shadows London Fae 2 by Pippa DaCosta

I got this book off netgalley for an honest review but I didn't know it was a sequel so I decided to pick up the first book City of Fae before moving on to this one. I saw a lot of potential in the first book. Even though I had some issues with it I was confident they could be resolved in the second book and most of it did, although I felt like the beginning was a little rough.

City of Shadows Sydney Police Photographs 1912 1948

The book is quite haunting. Being Australian, I'm a bit biased in claiming the book as a remarkable social and

historical text. Doyle's explanations (the book came out of a museum project) are succinct and have an easy sophistication (no po-mo verbocrap here!).

City of Shadows book by Ariana Franklin Thriftbooks

Ariana Franklin's City of Shadows is a gripping story, based on fact. The writing is taut, the storyline is fascinating and the tension is perfect (building slowly but surely to a surprising end). I felt as if I had been transported to the Berlin of the 1920s and 1930s. City of Shadows is a magnificent novel. Armchair Interviews says: City of Shadows is one of the best reads of 2006.
