## RELATED BOOK :

### **Colonial America A Very Short Introduction Very Short**

Colonial America produced an unprecedented mixing of radically diverse peoples African, European, and Indian under stressful circumstances for all. The colonial intermingling of peoples, microbes, plants, and animals from different continents was unparalleled in speed and volume. Everyone had to adjust to a new world of unpredictable social and cultural hybrids that compromised and complicated the ambitious plans of empire-builders.

### **Colonial America A Very Short Introduction by Alan Taylor**

This is a very concise introduction to colonial America. The harshness and brutality are always part of the picture, and the author does not spare the reader. This book is informative and serves as a guide to further reading, and I recommend it to anyone who is interested in how the New World was established by the European empires of the time.

### **Very Short Introductions Wikipedia**

Very Short Introductions (VSI) are a book series published by the Oxford University Press (OUP). The books are concise introductions to particular subjects, intended for a general audience but written by experts. Most are under 200 pages long. While authors may present personal viewpoints, the books are meant to be "balanced and complete" as well as thought provoking.

### **Colonial America A Very Short Introduction Alan Taylor**

In the traditional narrative of American colonial history, early European settlements, as well as native peoples and African slaves, were treated in passing as unfortunate aberrations in a fundamentally upbeat story of Englishmen becoming freer and more prosperous by colonizing an abundant continent of "free land."
