Social Psychology Amazon de David Myers Fremdsprachige

I had to buy this intro level Social Psych class. Its a very easy read. At times, like any text book ,its boring but overall Myers is very clear and extremely well organized. The book is up to date which is some what helpful to link recent events and social psych however I don't think he needs to update this as often as he does. You can stop making money at this point. Book is too expensive for broke college students.

Social Psychology by David G Myers

This was the first book I read in the area of social psychology, following a MOOC course I attended at coursera. Being new to the field, without any relevant academic background, this was an excellent introduction. The book is easy to read and keeps your attention vivid. Many times I found myself amazed about the concepts introduced in the book and really enjoyed the clarity of the text, so I think very high of it.
