Development and Social Change A Global Perspective

McMichael underscores his points with case studies and acutely observes the cultural phenomena and localized resistance of our times. Development and Social Change brings the sociology of development to the edge of modernity and the end of our century, in a vocabulary and style open to laypersons and sociologists alike.

Development and Social Change A Global Perspective

Development and Social Change is the first book to present students with a coherent explanation of how "globalization" took root in the public discourse and how "globalization" represents a shift away from development as a way to think about non-western societies. This is an ideal text for undergraduate and graduate students studying globalization, social development, and social change in Sociology, Political Science, Anthropology, and International Studies.
