Why Does It Work Drawing on the Right Side of the Brain

When Betty Edwards's book, Drawing on the Right Side of the Brain, was first published in 1979, it received an immediate positive response and, to everyone's surprise, remained on the New York Times's Best Sellers List for nearly a year. Over the years since then, Dr. Edwards has revised the book three times to include advances and clarifications in the teaching techniques and the underlying theory. The book is now widely accepted by artists, teachers, and others around the world.

The Effect of Right Brain Left brain on Art ThoughtCo

She put forward techniques whereby you can consciously access the 'right side' of the brain when drawing. This can help you draw or paint what you see rather than what you know. An approach like Edwards' really does work and has helped many people who previously believed they were incapable of drawing.
