Eye of the Needle by Ken Follett Goodreads

Eye of the Needle, a sharply-written WWII era thriller, is miles away in style and length from the mammoth, medieval epics Follett would later create. Though not a mindbendingly difficult read, the quality of the writing was already present at this early stage. Extra kudos must be given to any author who can switch gears and dabble in different genres. Working outside your comfortable corner can not be the easiest thing to do.
