

## **FIXED ASSET DEPRECIATION**

## RELATED BOOK :

### **How to Calculate Depreciation on Fixed Assets with**

Determine the expected lifespan of the asset. Your fixed asset has a lifespan, after which it will no longer be of use. That number is usually measured in years. In this example, assume that you purchased factory equipment for \$1,000, you expect it to last five years, and that it has a salvage value of \$200.

### **Overview of depreciation Depreciation accounting**

Depreciation has nothing to do with the market value of a fixed asset, which may vary considerably from the net cost of the asset at any given time. Depreciation is a major issue in the calculation of a company's cash flows , because it is included in the calculation of net income, but does not involve any cash flow.

### **Fixed asset depreciation Finance Operations Dynamics**

Extraordinary depreciation works like basic depreciation. Therefore, a main account is used to credit the depreciation amount to the balance sheet and reduce the value of the fixed asset. An offset account is a profit and loss account, where the depreciation that is calculated for the fiscal period is charged as an expenditure.

### **Fixed asset AccountingTools**

A fixed asset does not actually have to be "fixed," in that it cannot be moved. Many fixed assets are portable enough to be routinely shifted within a company's premises, or entirely off the premises. Thus, a laptop computer could be considered a fixed asset (as long as its cost exceeds the capitalization limit).
