Peter Gay is one of Freud's foremost biographers, and his mastery of Freud's work is reflected in his selections for this anthology. Each selection is arranged chronologically (except for a brief autobiographical piece by Freud, which serves as an introduction) to show the evolution of Freud's thought.

### **The Freud Reader by Sigmund Freud Goodreads**

Mostly what I like about this book is that is a great compendium of Freud's fundamental works. Peter Gay explains some details about the selected work, but as the book is intended, it is through Freud that we get the introduction to his theory. Freud is no doubt one of the most influential persons in the 20th century.
