Getting Married by Theresa Alan Goodreads Share book

I can't say that I liked this book but I didn't dislike it either. Overall the message was a good one about accepting who we are and where we are and not to stress about the future. It really wasn't about planning a wedding throughout the book. It took several twists and turns to get to the end and I kinda of tuned out in the middle but it redeemed itself at the end. I don't think I would recommend it to anyone I know.
