### **What It Means to Be Gifted in Math MathFour**

A child is gifted if the local testing center says he is. Some kids have different brain-wiring. Another definition that was discussed was of a neurological nature. Many kids just get math while some kids struggle. But that doesn't mean the strugglers can't do math. It merely means that they will likely be brilliant writers, politicians and historians, not mathematicians.

### **Challenging Gifted Students in Math Classroom Caboodle**

My second grader (age 7) who is actually gifted and not just a good student just tested at 5th grade for both math and reading. He is able to do a lot of math beyond 5th, but he has some gaps to patch up before moving on. The idea of giving him addition with bigger numbers is ludicrous. He's most of the way through pre-algebra and high school geometry on Khan Academy, which he does for fun at home.
