The Greatest Show on Earth The Evidence for Evolution by

I can not emphasize enough how much I admire and respect Richard Dawkins. His books are veritable university courses on biology, anthropology and natural history, this one is no exception. If there's a knock on The Greatest Show On Earth, it's that you cannot read it when you're tired or sleepy. Richard is so passionate about his vocation that he sometimes forgets that some of us don't have his stamina, much less his vocabulary.
