RELATED BOOK :

A History of Modern Europe From the Renaissance to the

A History of Modern Europe is a comprehensive overview of European History. It takes the reader through history in a likeable pattern where it switches from country to country and maintains a chronological path. If one is looking for a history of an individual country, one needs to flip from one section to another. I enjoy history, and surprisingly enjoy history textbooks. This book is great factually, and leaves the reader with a sense of the little stories of history.

A History of Modern Europe From the Renaissance to the

I took a history class on modern Europe and we used this as our textbook. The book was very confusing. A lot of the material in the book was new to me and did a poor job of explaining. I would not recommend this book unless you already know a lot about the history of modern Europe.
