RELATED BOOK :

How Dogs Think Understanding the Canine Mind Stanley

This book contains much information about how dogs see, smell and hear. It explains such things as why male dogs lift their leg when they urinate, and all the traits dogs inherited from wolves. So while it does not delve deeply into how dogs think, it explains the amazing things dogs can do, and some that they cannot do. It is interesting in its own right, but it also helped me understand my dog.
