How to Grow Your Own Vegetables Gardening

If you have the choice, it's best to grow vegetables in a sunny, sheltered spot. Most vegetable plants are annuals; they are working on a short timescale and need to grow rapidly. To enable them to perform they need all the help they can get and plenty of food to fuel the growing process; that's only possible in full sun. Many plants, such as tomatoes and cucumbers need shelter from the wind. They won't grow well if rocked at their roots; also their leaves will blacken with wind burn.
