Human Biology by Sylvia S Mader

What a giant turd of a book. Lifeless, dry, monotonous and slanted. Mader has killed any interest I might have in biology - thank you for the nuclear winter in my head. The instructions that came with my hot water heater are more interesting (and better written) than this book.

Human Biology Sylvia S Mader Google Books

Human Biology remains user friendly; relevancy and pedagogy are among its strengths. In this edition, as in previous editions, each chapter presents the topic clearly and distinctly so that students will feel capable of achieving an adult level of understanding. Detailed, high-level scientific data and terminology are not included because Dr. Mader believes that true knowledge consists of working concepts rather than technical facility..
