### **Interpersonal Process in Psychotherapy A Relational**

Hands-down my favorite book from grad school and for learning how to be a therapist. I'm pretty sure I read the whole thing cover to cover, and am using it now in the training of a psychiatry resident. It's so accessible in explaining the theory and the process/procedures/how-to for interpersonal therapy. In short, I LOVE IT.

Interpersonal psychotherapy (IPT) is a brief, attachment-focused psychotherapy that centers on resolving interpersonal problems and symptomatic recovery. It is an empirically supported treatment (EST) that follows a

highly structured and time-limited approach and is intended to be completed within 12-16 weeks. IPT is based on the principle that relationships and life events impact mood and that the reverse is also true.
