The Jazz Theory Book Amazon de Mark Levine

There is a lot of the same material as the jazz piano book but there is data in the jazz piano book which is not on this one (more specific to pianists - like data on chord voicings) and there is data in this one on improvisation, repertoire and practise routines they is not in the piano book. When I went through this one several points about scales and modes I had misunderstood finally clicked.

Best jazz theory book jazzguitar be

The best Jazz theory "book" for me is the records first and foremost. However, I do have a bookshelf with lots of reference books for when I need to leaf through to figure out what I'm hearing. I don't have any one favorites I learn from many. Even bad books.

The Jazz Theory Book Mark Levine Google Books

I have read other Jazz theory books - and most of them read like a darned math textbook. Not this one. You can actually sit down at the piano and figure stuff out in a way that it will stick with you. I spent 45 years of my life trying to learn improvisation. It was not until I read this book that the real magic began to happen and for the first time in my life I can actually consider myself a real musician.
