Short Term Loans and Long Term Loans OnDeck

Annual Interest Rate calculates the yearly interest percentage you pay based on your average loan balance. This rate excludes any fees. While you should always consider the total cost of a loan, for longer terms (more than 12 months) you can use the Annual Interest Rate to compare loans of similar duration. Example: On a 24 month, \$100,000 loan with 9.99% Annual Interest Rate and weekly payments, your interest cost is \$10,418.15, for a total loan payback amount of \$110,418.15.
