Signs of Low Self Esteem in Women LIVESTRONG COM

Women who show signs of low self-esteem have a damaged sense of self-worth that most likely began in childhood. Adolescent and teenage girls are at particular risk of developing low self-esteem because of the many forms of media--television, magazines, advertising and websites--that emphasize impossible standards of beauty and appearance. Low self-esteem can lead to serious physical and mental health issues.

low self esteem Good Choices Good Life

Many young men struggle with low self-esteem associated with weight and body composition particularly concerning muscle mass. The body of a man is not so much treated in our culture as an object for others, but as a sign of his masculinity. Young men may feel pressured to develop large muscles as a show of strength and manliness; they may also feel self-conscious about their height.
