How to Run a Mac OS in Windows Virtual Machine Techwalla com
If you want to test out the Apple Operating System before buying an Apple Mac machine, you can install the Mac Operating System into a virtual machine that runs directly on your existing Windows hardware. Virtual machine applications allow your personal computer to act and run as if it is a Mac. To begin this process, a copy of a virtual machine client is required. For this, you will use Oracle VirtualBox, which is a free virtual client software package.
