In tandem with Levine's "Jazz Theory" book, this massive tome is a perfect Bible for beginner-to-intermediate jazz pianists. It gets you from theory to polychords, builds off of voicings and stylings by artists like Mulgrew Miller, Chick Corea, McCoy Tyner, Bill Evans, Wynton Kelly, Keith Jarrett and more, and approaches everything in bite-sized chunks that you can practice and build off of.

I have read other Jazz theory books - and most of them read like a darned math textbook. Not this one. You can actually sit down at the piano and figure stuff out in a way that it will stick with you. I spent 45 years of my life trying to learn improvisation. It was not until I read this book that the real magic began to happen and for the first time in my life I can actually consider myself a real musician.
