The Simpsons and their Mathematical Secrets Simon Singh

It is a really great episode with lots of great lines, but from a mathematical point of view the screen grab above stands out. The last line appears to conclude that: $1 \frac{1}{2} + \frac{1}{3} \frac{1}{4} + = 0$. Before explaining how something can be equal to nothing, let me know explain how this bit of mathematics cropped up in the episode.

The Simpsons' secret formula it's written by maths geeks

This is not a figment of my deranged mind, which admittedly is obsessed with both The Simpsons and mathematics, but rather it is a concrete claim backed up in a series of remarkable episodes.
