### **NCCP Measuring Poverty in the United States**

According to the guidelines, the poverty level in 2008 is \$21,200 a year for a family of four and \$17,600 for a family of three (see table).<sup>1</sup> The poverty guidelines are used to determine eligibility for public programs. A similar but more complex measure is used for calculating poverty rates.

### **How should we measure poverty World Economic Forum**

To illustrate the difference, let us go back to the case of Romania in the year 2006, when the government switched to officially reporting relative poverty but continued to measure absolute poverty. The SI.POV.NAHC series reports only the official relative values for 2006 and thereafter, whereas the SI.POV.NAHC.NC series reports the previously published absolute values prior to 2006 as well.
