Parks Canada National Parks of Canada

National parks are a country-wide system of representative natural areas of Canadian significance. By law, they are protected for public understanding, appreciation and enjoyment, while being maintained in an unimpaired state for future generations. National parks have existed in Canada for well over a century.

National Parks of Canada Wikipedia

National Parks of Canada are protected natural spaces throughout the country that represent distinct geographical regions of the nation. Under the administration of Parks Canada, a government branch, National Parks allow for public enjoyment without compromising the area for future generations, including the management of wildlife and habitat within the ecosystems of the park.

1001 National Parks of Canada Information Proudly

Today, there are 38 National Parks and National Park Reserves. National Park Reserves are established in areas with unresolved land claims. As soon as those claims are settled, the area will become a National Park. In 1997, the total area covered by National Parks was as large as 224,465.9 sq km, which is about the size of two per cent of Canada's total land mass. Not included are numerous Provincial Parks, that can be found in all provinces.
