Natural Cures "They" Don't Want You To Know About is a 2005 self-published book by American author Kevin Trudeau, promoting a variety of non-drug and non-surgical purported cures for many diseases, primarily in support of his business selling such products. Trudeau accuses pharmaceutical companies and the United States government of censoring these products and methods on the basis that it would cut into their profit-margin. The book is the subject of widespread allegations of fraud.
