Needle Felting Basics for Beginners

There are two types- one is dry (needle) felting and the other one is wet felting. This video shows the creations I made with dry felting, this process uses a special barbed needle to create friction between the fibers when you use the needle to poke them up and down. This allows the fibers to tangle together and creates a volume.

Needle felt equipment and materials needlework tips and

Needle felting surfaces. Needle felting needles are delicate and stabbing them through wool onto a hard surface is likely to damage them, so you will need something to cushion the tips as you work. High-density upholstery foam is the most popular surface, but you can buy special needle felting brushes where you work on top of the bristles.
