Recommended Reading IAN DS

This book presents near-death experiences as one of several lines of evidence that "strongly challenge the mainstream neuroscientific view that mind and consciousness result solely from brain activity".

Dr Melvin Morse's Near Death Experience Research

Near-death experiences have the power to become a cultural ice breaker with a resulting healing of our societal fear of death. I predict that when we institutionalize the understanding that the near-death experience is, indeed, the dying experience, we will see a healthy withering away of unnecessary medical interventions at death.
