How to Choose Non toxic Essential Oil Diffusers Clear Well

How to Choose a Non-toxic Essential Oil Diffuser. I began fretting that finding a non-toxic essential oil diffuser was going to be tough, but then remembered that we had been able to locate several humidifiers made from safer plastic. So we got busy researching and rounded up a great list of diffusers! The following products are made of two types of safer plastics, polypropylene (PP) and/or ABS.

DIY Non Toxic Cleaner with Essential Oils Recipe

For non toxic cleaning, I would highly recommend e-cloth or Norwex products. They literally pick up bacteria and viruses from surfaces and the germs are washed down the drain with hot water rinses, the cleaning is done with water only, no chemicals, and it works!

More about Toxic and Phototoxic Essential Oils

Phototoxicity - these essential oils become toxic when exposed to direct sunlight. These oils are fine in candles, but shouldn't be used in any sort of application where the essential oil will stay on your skin and be exposed to the sun. Using these oils in soap is o.k. because it is rinsed off, but using them in a balm or a lotion is not

recommended because the essential oils stay on your skin.
