### **The Outline of History Vol 1 of 2 by H G Wells**

H.G. Wells takes us on a journey through the entire span of history. It moves quickly, but at around 1,000 pages with small font, it is still quite dense. It is meant for the average reader and not for the professional historian.

I am loving this book--so I bought HG Wells Short History of the World, too. The Outline is outstanding, I've read lots of history books--including Bill Bryson's A Short History of Nearly Everything (an all-time favorite that I frequently give as a gift), but explanations in The Outline are often simpler and clearer than many others.

I grew up reading the science fiction works of HG Wells and Jules Verne in childhood and I was not aware of this book on history that Wells wrote in the aftermath of the First World War.
