I would've given Palmer a perfect 5 if not for the last 8 pages, although I want to attribute his enthusiasm for institutions to the fact that he wrote The Courage to Teach in the 90s. I'd also love to hear what he has to say about the corporate world's influence on academia today.

Palmer is passionate, but the book is not well written. If teachers are looking for the courage to teach, they should find one of James Herndon's books (two of which are recently back in print) or read Kozol's *Savage Inequalities* or any one of Ted Sizer's books. I applaud Palmer's intentions, but the end result is lacking.
