Paris The Novel Goodreads

It's a multi-generational novel, following the story of one family from medieval times to the 1960's. Edward Rutherfurd did a brilliant job with his vivid description and character development. I loved seeing Paris through their eyes and experiences. His research was extensive and it shows on the page.

Paris France novel Wikipedia

Paris France is a memoir written in a stream of consciousness style. It is interpreted as Gertrude Stein s personal view of France as a country, and the French people. She observes the French eating, drinking, crossing the street, and carrying out their day in no other way that deviates from their "Frenchness." The word "French" quickly becomes a state of being or state of existence.
