Five Types of PLC Language Techwalla com

Like the ladder diagram PLC language, the SFC language is graphically oriented. SFC has the benefit of being relatively easy to understand because you can visualize what is happening and when it is happening in the procedure of the code. Only the active parts of the SFC code are executed, which makes it easier to troubleshoot and change the code if problems occur.

PLC Languages KronoTech

Ladder logic is the main programming method used for PLC's. As mentioned before, ladder logic has been developed to mimic relay logic. The decision to use the relay logic diagrams was a strategic one. By selecting ladder logic as the main programming method, the amount of retraining needed for engineers and trades people was greatly reduced.
