Fixed income Wikipedia

"Fixed income securities" can be distinguished from inflation-indexed bonds, variable-interest rate notes, and the like. If an issuer misses a payment on a fixed income security, the issuer is in default, and depending on the relevant law and the structure of the security, the payees may be able to force the issuer into bankruptcy.

The Highest Yielding Fixed Income Investments

One of the most compelling aspects of bank loans is that they have floating rates, which provides an element of protection against rising rates. Funds that invest in senior loans can typically be expected to offer yields about two to three percentage points above broad-maturity U.S. Treasury funds.

Fixed Income Trading Factors that Effect the Market

Income: All fixed income securities (with the exception of zero-coupon bonds) provide some form of regular interest payments to investors. This makes the fixed income market especially attractive to investors whose main investment goal is providing themselves with a steady income.
