Ever since Canon introduced its original 'Digital Rebel' back in August 2003 - famously the first 'affordable' digital SLR - the company has continually developed and refined its entry-level line with ever-more-frequent releases, adding in more and more features in the process. So true to form, almost precisely a year to the day after the

Custom Functions. The 600D's 11 custom functions are defined as being in four categories: Exposure, Image, Autofocus/Drive, Operation/Other. It doesn't really make sense to have an extra tier of menu to let you directly access each of these categories, since there are only two or three options in each.

Operation and Controls (cont.) Like all other cameras at this level, interaction with the 600D is primarily via its rear LCD. This shows you the status of the camera and allows you to change its settings, with the degree of control available (and therefore complexity presented to the user) dependant on the exposure mode you're using.
