Phenomenology of religion Wikipedia

The phenomenology of religion concerns the experiential aspect of religion, describing religious phenomena in terms consistent with the orientation of worshippers. It views religion as made up of different components, and studies these components across religious traditions in order to gain some understanding of them.

Phenomenology of religion Britannica com

The most prevalent and substantial criticism of phenomenology of religion concerns its attempt to seek out and present universal or essential aspects of religious life. Critics charge that in following Otto's and Eliade's lead and positing the sacred as religion's essence, phenomenologists unduly favour a Western, and especially Christian, concept of religion.
