Introduction to Project Reporting ProjectManager com

Project reporting is the use of formal and informal reports to communicate the status of your project. But rather than think of them as a chore, think of reporting as a tool. It is a way you can manage expectations from your stakeholders and team members, as well as provide the scope, time and budget for your project.

3 Project reporting Projectmanagement training net

Project plans therefore work as follows: a global budget is made for the entire project, along with a concrete budget for the next subsequent phase. For example, if a project team is preparing to enter the implementation phase (after the development phase), they are well aware of what must happen. At that point, it is possible to make a detailed budget for the implementation phase.
