

[RISK ASSESSMENT STANDARDS](#)

RELATED BOOK :

ISO 31000 Risk management

Using ISO 31000 can help organizations increase the likelihood of achieving objectives, improve the identification of opportunities and threats and effectively allocate and use resources for risk treatment. However, ISO 31000 cannot be used for certification purposes, but does provide guidance for internal or external audit programmes.

Risk management standards The IRM

Risk management standards. A number of standards have been developed worldwide to help organisations implement risk management systematically and effectively. These standards seek to establish a common view on frameworks, processes and practice, and are generally set by recognised international standards bodies or by industry groups.
