### **Meisner technique Wikipedia**

The Meisner technique is an approach to acting which was developed by the American theatre practitioner Sanford Meisner. [1] The focus of the Meisner approach is for the actor to "get out of their head", such that the actor is behaving instinctively to the surrounding environment.

### **About the Meisner Acting Technique Sanford Meisner**

The Meisner technique is a progressive system of structured improvisations for developing concentration and imagination, stimulating instincts and impulses, and achieving the reality of doing in performance. In Meisner's view, great acting depends on the actor's impulsive response to what's happening around him. His key exercise, spontaneous repetition, is designed for the actor to develop that dormant capacity.
